Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Study of Women's Health Across the Nation (SWAN), 2001-2003: Visit 05 Dataset

1. **Variable Link:** Using the variable **SWANID**, this dataset can be linked with the SWAN Cross-Sectional Screener Data (ICPSR 04368), Baseline Data (ICPSR 28762), Visit 1 Data (ICPSR 29221), Visit 2 Data (ICPSR 29401), Visit 3 Data (ICPSR 29701), Visit 4 Data (ICPSR 30142), Visit 5 Data (ICPSR 30501), Visit 7 Data (ICPSR 31901), Visit 8 Data (ICPSR 32122), Visit 9 Data (ICPSR 32721), and Visit 10 Data (ICPSR 32961).
2. **Stata Limitations:** Due to Stata limitations, several variables do not contain value labels for character variables within the Stata files.
3. **Variable Differences:**
 - a. The variable **EATMEAT5** occurs in the P.I. Codebook under the Additional Variables section, but not the data; no further information was provided.
 - b. Some variables that are referenced in the P.I. Documentation (**HRMDAY5**, **CVRDAY5**) have limited information provided.
 - c. Some variables that are referenced in the data (**AGE5**) are included in the data set released by ICPSR, but not in the P.I. Documentation; no further information was provided.
4. **Additional Information:** For additional information on the Study of Women's Health Across the Nation, please visit the [SWAN](#) website.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
